

We oppose the Oregon \$800 Million Beer, Wine, Cider, Tobacco, Vaping and Soda Tax that unfairly target family owned grocers, small businesses and consumers.

Whereas Governor Kate Brown has drafted an \$800 million beer, wine, cider, tobacco and vaping product tax;

Whereas the Legislature has already drafted 2019 legislation and tax models on soda tax revenue and related sales;

Whereas vaping products helps people quit smoking and is 20% more effective than a patch at helping smokers quit;

Whereas Oregonians pay the 10th highest state taxes in the nation per capita;

Be it Resolved that we, the overtaxed Citizens of Oregon, oppose these new taxes on beer, wine, cider, tobacco, vaping and soda products. We encourage State lawmakers to cut government waste instead of new taxes or find solutions that the small business community can support.
