

## Republicans Poised for Big Legislative Gains in Oregon; Democrats Face Their Darkest Days Yet

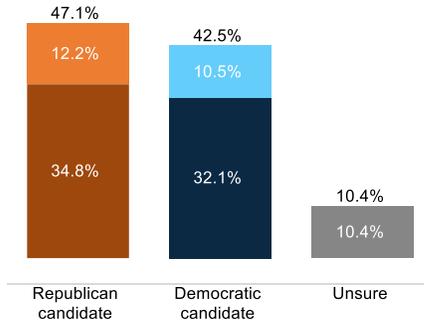

DATE: Thursday, July 7, 2022  
TO: Interested Parties  
FROM: Brent Buchanan, President and Founder  
RE: Survey of likely General Election Voters in Oregon

### Democrats from Salem to DC are drowning in the polls

- Things have **never looked worse for Democrats** in Oregon. Even in the wake of *Dobbs*, Democrats at every level of government are taking the full brunt of voter’s frustrations.
- Joe Biden remains incredibly unpopular with a net favorability of -17%. Nearly every demographic has a net unfavorable view of the President with **more than 2/3 of NAVs dissatisfied** with Biden (53% *very unfavorable*).
- Similarly, elected **Democrats in Washington DC** and in **the state legislative assembly** are facing **intense double-digit favorability deficits**.
- Tina Kotek is even **more unpopular than Joe Biden** with a net favorability of -18%.

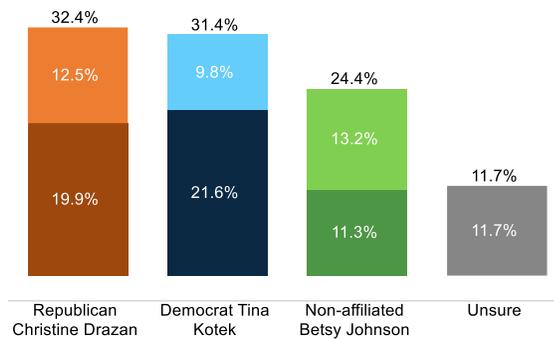

### With confidence in the direction of the state dismal, voters are turning to the GOP

- Nearly 60% of voters believe Oregon is on the wrong track, (45% *definitely*).
- Republicans can be more than optimistic sitting on an **R+4.6 generic ballot**.
- **NAVs** are overwhelmingly going for the Republican on the generic ballot (**R+20**).
- With 10% undecided, Republicans have room to increase their lead especially among seniors.

### Governor ballot further confirms: Democrats are in BIG trouble

- With **Christine Drazan leading** in the governor’s race, Democrats hit a hard ceiling of support while **Republicans prepare to widen the gap**.
- Kotek cannot even rally her own party. **Only 63% of Democrats plan to vote for her**.
- Nearly every demographic comes home to Drazan instead of Kotek, **especially NAVs**.
- With the Generic Ballot at +5 and the Governor ballot +1, **Drazan has great potential to gain those 4 points and more**.

This Cygnal n600 poll in Oregon was conducted June 28-30, 2022, with a margin of error of ±3.94

**ABOUT CYGNAL:** [Cygнал](#) is an award-winning international polling, public opinion, and predictive analytics firm that pioneered multi-mode polling, text-to-web collection, and emotive analysis.
